

Chris Kodeck

BIOGRAPHY

Chris is an international management consultant with over 10 years of advisory experience and supported its clients along in strategy, management and earlier IT. Prior to co-founding Irbaris, Chris worked with McKinsey and Company for 7 years and Accenture for 3.

Over the past 2 years, Chris has worked on a number of engagements related to Climate Change and specifically on topics of Energy Efficiency in a number of sectors such as Building Efficiency, Electricity distribution, Transportation and Telecommunications. Chris is also involved in a number of advisory activities for entrepreneurs and carbon developers in the renewable area.

Whilst with McKinsey, Chris focused on the TMT sector in Europe, Asia and the US, supporting clients with advisory services along three dimensions: (1) Corporate strategy and how to develop and maintain a competitive advantage (2) operational effectiveness and (3) M&A and deal support, from due diligence to post-merger management.

Prior to McKinsey, Chris worked for Accenture – formerly Andersen Consulting – as an IT technical architect on a number of projects in the CRM space for Insurance Companies, in the FMCG space and in retail banking.

Chris is Belgian, lives in London and speaks English, French, Portuguese, Dutch and Spanish.
